

Lesson 4-2-D T-Chart Graphs with $ax+by=c$

We can use a T-chart to go from $2x+y=6$ to a graph

Hint! Get "Zeros" first!

x	y
0	$2(0)+y=6$ $y=6$
3	$2x+(0)=6$ $2x=6$ $x=3$
1	$2(1)+y=6$ $2+y=6$ $y=4$
2	$2(2)+y=6$ $4+y=6$ $y=2$

x	y
0	6
3	0
1	4
2	2
